RETAIL PRICE LIST

OF

Vines, Plants, Trees, Shrubs,

EVERGREENS, ROSES, &c.

**FOR FALL OF 1871.**

**R. CUMMING & CO.**

(SUCCESSORS TO J. KNOX,)

**PITTSBURGH, PA.**

WE have sought to grow, the present season, a very superior rather than a large stock of the various articles offered in this list. Great care has been bestowed upon the propagation and cultivation of our entire stock, which is in variety the most complete that has ever been grown here or elsewhere, embracing nearly every variety of any merit.

We can safely say, that the stock we offer this Fall is fully equal in all respects to any in the country, and our prices are as low as a genuine article of the best quality can be grown for.

When as many as 500 vines or plants of *any one variety* are ordered, we furnish them at the rate per 1000—less than 500 and as many as 50, at the rate per 100—below 50 and not less than 6, at the rate per dozen—below 6, at the price per single article. This arrangement must be strictly adhered to.

**Terms Cash;** no departure from this rule except by special agreement.

Our packing is done in the most careful and thorough manner, for which we charge cost of material.

Purchasers will please say whether they wish articles ordered, sent by express or otherwise. We will make the best possible arrangements with the forwarders. After shipping and giving notice, as is customary, our responsibility ceases.

When the parties are not known to us, orders must be accompanied by the cash or a suitable reference. Those who favor us with their orders are requested to send early.

In no case do we pay express charges, except by special agreement with the purchaser.

## LARGE PLANTERS AND DEALERS.

We are prepared to supply large planters and dealers stock at special rates, on application.

Parties applying for special rates should send us a list of the articles wanted, when prices will be annexed and list returned. We can sell stock as low as any other reliable Nursery.

## CLUB ORDERS.

It will be found a good plan, and effect a great saving, for a number of persons, wanting but small lots, to club together, thus enabling them to get their articles at the 100 and 1000 rates, besides saving cost in transportation. WE WILL IN ALL CASES ALLOW TO THE GETTER UP OF THE CLUB on all orders amounting to less than \$50 and over \$10, a premium of 10 per cent. On all orders over \$50, a premium of 20 per cent.

For further information see our Descriptive and Illustrated Catalogue, which contains much valuable information on Small Fruit Culture, and will be sent to all applicants enclosing 10 cents.

# ***SPECIAL TO THE TRADE.***

## **THE MARTHA GRAPE.**

THE continued well doing of this variety, and its rapidly increasing popularity, has created a demand for vines heretofore unprecedented.

We have much the largest and best stock of vines in the country, as it is well known that Mr. Knox secured the original stock. We have extensive vineyards of it in bearing, which we shall be glad to show to any persons visiting our grounds.

We will supply Nurserymen vines at the following very low prices :

1 year old No. 1.....	\$150 per 1000.

We have a large stock of Eumelon, Walter, Roger's Hybrids, Concord, Iona, Delaware, Hartford, Creveling, Ives, &c., for prices of which see our Price List.

## **CURRENTS.**

There is a rapidly growing demand for the leading varieties of Currants, of which we have perhaps the largest and best stock in the country. It will be seen that we are offering plants to the Trade at very low figures.

Our stock of **Raspberries, Blackberries, Gooseberries, &c.**, is remarkably fine this season, which we offer low.

We have given special attention to growing a fine stock of **Roses, Hardy Shrubs**, and a general collection of Ornamental Plants, to which we invite the attention of Nurserymen and Dealers.

## **BULBS.**

We are importing the present season, from one of the finest collections in Holland, a large stock of **Hyacinths, Tulips, Crocus, Gladiolus**, and other Flower Roots, Catalogue of which will be sent on application.

## STRAWBERRIES.

### JUCUNDA—"OUR No. 700,"

Still maintains its position at the head of the list, and undoubtedly is the most valuable variety grown. The demand for plants has been much greater than the supply. We had orders for large quantities last spring that we could not fill. We are growing the present season a stock of this and other varieties that we think will equal any demand.

### CAUTION.

We here take occasion to caution purchasers from buying spurious plants. We last season procured sample plants from three sources, for Jucunda, that proved to be not genuine. There is no doubt that the reputation of this variety has been greatly injured in some sections of the country by the dissemination of many spurious plants.

For further information of this and other varieties, with colored plate, see our Descriptive and Illustrated Catalogue, sent on receipt of 10 cents.

### PRICES OF PLANTS.
